Student/ Designer/ VideoGrapher/ Photographer/

About me

Hiiii, I'm Milton <3

I study interactive media design and spend most of my time experimenting with visuals. I like working in a very instinctive way, building projects around emotion, mood, and visual impact. I'm always curious, open to new ideas, and constantly shaping my own creative universe <333

Video and photo is what interests me the most. I'm deeply inspired by cinema, editing, rhythm, and sound, and I enjoy creating images that feel emotional <3
